Introduction

xxv

CHAPTER 1	Getting to Know AutoCAD	1
	Starting AutoCAD	2
	Accessing the Welcome Screen	2
	Understanding the Customer Involvement Program	5
	Exploring the User Interface	6
	Using Standard Workspaces	8
	Switching the Current Workspace	9
	Putting the User Interface to Work	11
	Using the Ribbon	13
	Using File Tabs to Manage Drawings	18
	Working in the Command-Line Interface	19
	Understanding the Status Bar	22
	Using the Application Menu	24
	Using the Toolbars	28
	Using the Keyboard	29
	Using the Mouse	30
	If You Would Like More Practice	31
	Are You Experienced?	32
	Now you can	32
CHAPTER 2	Learning Basic Commands to Get Started	33
	Using the Line Tool	34
	Using Coordinates	39
	Using Relative Coordinates	43
	Using the Direct Distance Method	45
	Drawing the Shape	46
	Using Relative Cartesian Coordinates	46
	Erasing Lines	48
	Controlling How the Selection Tools Are Displayed	48
	Using Relative Polar Coordinates	50
	Using Direct Input	50
	Using the Offset Command	52
	Using the <i>FILLET</i> Command	55

Completing the Shape	59
Offsetting Lines to Mark an Opening	59
Extending Lines	60
Trimming Lines	62
If You Would Like More Practice...	66
Are You Experienced?	67
Now you can.....	67

CHAPTER 3 Setting Up a Drawing 69

Setting Up the Drawing Units	70
Setting Up the Drawing Size	75
Using the Grid	75
Setting Up Drawing Limits	79
Drawing with Grid and Snap	83
Taking a Closer Look at Dynamic Input	86
Saving Your Work	88
Saving Drawings to Your Hard Drive or Network Drive.....	89
Saving Drawings to Autodesk 360 Storage.....	92
Understanding AutoCAD Units.....	94
Exploring Options for Linear Units.....	94
Exploring Options for Angular Units	95
Are You Experienced?	96
Now you can.....	96

CHAPTER 4 Developing Drawing Strategies: Part 1 97

Laying Out the Walls	98
Creating Polylines from Existing Objects	99
Creating and Editing Polylines	102
Creating the Exterior Wall Lines.....	105
Creating the Interior Walls	108
Cutting Openings in the Walls	121
Creating Doors	131
Drawing Swinging Doors.....	132
Copying Objects	143
Mirroring Objects.....	145
Scaling the Bathroom Door	150
Drawing a Sliding Glass Door	152
Drawing the Bifold Doors	162

If You Would Like More Practice...	169
An Alternative Sliding Glass Door.....	169
An Addition to the Cabin.....	170
Three Views of a Block.....	171
Are You Experienced?.....	173
Now you can.....	173

CHAPTER 5	Developing Drawing Strategies: Part 2	175
------------------	--	------------

Starting and Running Commands.....	176
Drawing the Thresholds.....	178
Drawing the Front Threshold.....	179
Drawing the Back Threshold.....	184
Drawing the Decks and Stairs.....	187
Drawing the Front Deck.....	187
Drawing the Deck Posts.....	191
Drawing the Stairs.....	195
Mirroring the Post and Railing.....	197
Drawing the Back Deck and Stairs.....	201
Using Point Filters to Finish the Deck.....	207
Laying Out the Kitchen.....	210
Drawing the Counter.....	210
Drawing the Stove and Refrigerator.....	216
Completing the Stove with Parametrics.....	218
Drawing the Kitchen Sink.....	233
Constructing the Bathroom.....	236
Setting Running Object Snaps.....	237
Drawing a Shower Unit.....	238
Drawing the Bathroom Sink and Mirror.....	240
Positioning the Toilet and Shelves.....	244
Drawing the Hot Tub.....	248
If You Would Like More Practice...	252
Drawing the Cabin Again.....	252
Drawing Something Else.....	252
Drawing Furniture for the Cabin.....	252
Drawing a Gasket.....	253
Drawing a Parking Lot.....	255
Are You Experienced?.....	257
Now you can.....	257

CHAPTER 6	Using Layers to Organize Your Drawing	259
	Using Layers as an Organizing Tool	260
	Setting Up Layers	262
	Assigning Linetypes to Layers	276
	Assigning Objects to Layers	282
	Turning Off and Freezing Layers	298
	Drawing the Headers	302
	Drawing the Roof	306
	Setting a Linetype Scale Factor	312
	Drawing the Ridgeline	314
	Using the Layer Walk Tool	315
	Setting Properties of Layers and Objects	318
	Assigning a Color or a Linetype to an Object Instead of a Layer	318
	Making a Color or a Linetype Current	319
	Using the Action Recorder	320
	Creating Layer States	323
	If You Would Like More Practice	328
	Experimenting with Linetypes and Linetype Scales	328
	Setting Up Layers for Your Own Trade or Profession	329
	Are You Experienced?	329
	Now you can	329
CHAPTER 7	Combining Objects into Blocks	331
	Making a Block for a Door	332
	Inserting the Door Block	340
	Using Dynamic Blocks	345
	Understanding and Using Groups	347
	Finding Blocks in a Drawing	350
	Using Grips to Detect a Block	350
	Using the <i>List</i> Command to Detect a Block	351
	Using the Properties Palette to Examine a Block	353
	Creating a Window Block	355
	Inserting the Window Block	360
	Rotating a Block during Insertion	361
	Using Snap Tracking to Set the Insertion Point	364
	Changing a Block's Scale Factor by Using Object Properties	366
	Finishing the Windows	368

Revising a Block	373
Sharing Information between Drawings	375
Dragging and Dropping between Two Open Drawings	376
Copying Objects between Drawings	379
Using the AutoCAD DesignCenter.	380
Using Other Ways to Share Information between Drawings	387
If You Would Like More Practice...	395
Are You Experienced?	397
Now you can...	397

CHAPTER 8 Controlling Text in a Drawing 399

Setting Up Text Styles.	400
Determining Text and Drawing Scale	400
Defining a Text Style for View Titles	402
Placing Titles of Views in the Drawing	406
Using Annotative Text.	411
Defining an Annotative Text Style.	411
Placing Room Labels in the Floor Plan.	414
Using Text in a Grid	425
Creating a Border and Title Block	437
Using Multiline Text	454
Finishing the Title Block.	454
Using Mtext for General Notes.	458
Using the Spell-Check Feature	467
Exploring Other Aspects of Multiline Text	471
If You Would Like More Practice...	476
Are You Experienced?	477
Now you can...	477

CHAPTER 9 Using Dynamic Blocks and Tables 479

Using Attributes for a Grid	480
Defining Blocks with Attributes	485
Inserting Blocks with Attributes.	487
Editing Attribute Text	490
Setting Up Multiple Attributes in a Block	491
Defining a Block with Multiple Attributes	496
Calculating Areas.	498

Inserting the Room Information Block	502
Editing Attributes	507
Controlling the Visibility of Attributes	511
Exploring Other Uses for Attributes	515
Creating a Dynamic Block	516
Setting Up Parameters and Actions	517
Fine-Tuning the Dynamic Block with the Properties Palette	521
Inserting a Dynamic Block	525
Creating a Table	531
Defining a Table Style	531
Designing a Table	535
Adding Formulas to a Table	539
Creating Tables from Attributes	544
Modifying the Table Display	549
If You Would Like More Practice	552
Are You Experienced?	552
Now you can	552

CHAPTER 10 Generating Elevations 553

Drawing the South Elevation	554
Creating the South Elevation	555
Setting Up Lines for the Heights	556
Using Construction Lines to Project Elevation Points	559
Copying Objects by Using Grips	560
Trimming Lines in the Elevation	564
Assigning Elevation Layers	570
Drawing the Decks in Elevation	571
Generating the Other Elevations	587
Making the Opposite Elevation	588
Revising the New South Elevation	591
Making the Front and Back Elevations	598
Considering Drawing Scale Issues	609
Drawing Interior Elevations	610
If You Would Like More Practice	610
Are You Experienced?	612
Now you can	612

CHAPTER 11 Working with Hatches, Gradients, and Tool Palettes 613

Hatching the South Elevation	614
Looking at Hatch Patterns.	618
Hatching the Rest of the South Elevation	620
Using Hatches in the Floor Plan	633
Creating the User-Defined Hatch Pattern.	634
Controlling the Origin of the Hatch Pattern	636
Finishing the Hatches for the Floors	638
Modifying the Shape of Hatch Patterns.	640
Creating and Managing Tool Palettes	642
Creating a New Tool Palette.	642
Setting Up a Palette for Hatches	646
Creating a Palette for Commands	648
If You Would Like More Practice.	650
Creating the Hatch Patterns for the Other Elevations.	650
Creating Your Hatch Palette	652
Are You Experienced?	653
Now you can.	653

CHAPTER 12 Dimensioning a Drawing 655

Introducing Dimension Styles	656
Preparing for Dimensioning	657
Making a New Dimension Style.	659
Setting Up the Symbols And Arrows Tab	661
Making Changes in the Text Tab.	662
Working with Settings on the Fit Tab.	664
Setting Up the Primary Units Tab (Architectural)	665
Setting Up the Primary Units Tab (Metric).	667
Completing the Dimension Style Setup	668
Exploring the Alternate Units Tab.	670
Exploring the Tolerances Tab	672
Placing Dimensions on the Drawing	678
Placing Horizontal Dimensions.	678
Using the Dimension Continue Command.	680
Using the Dimension Baseline Command	683
Setting Up Vertical Dimensions	684
Finishing the Dimensions	688

Using Other Types of Dimensions	689
Using Radial Dimensions	690
Adding a Diameter Dimension	691
Adding an Arc Length	692
Setting Up Parent and Child Dimensioning Styles	692
Using Aligned and Angular Dimensions	695
Using Ordinate Dimensions	697
Using Leader Lines	700
Modifying Dimensions	707
Editing Dimension Text Content	708
Moving Dimensions	711
Adjusting Space between Stacked Dimensions	713
Using Dimension Overrides	714
Dimensioning Short Distances	716
If You Would Like More Practice	720
Dimensioning the Garage Addition	720
Dimensioning to a Centerline	721
Completing Further Exercises	725
Are You Experienced?	725
Now you can	725
CHAPTER 13	Managing External References
727	
Drawing a Site Plan	728
Using Surveyor's Units	729
Drawing the Driveway	733
Setting Up an External Reference	741
Using the External References Palette	741
Organizing the Drawing Objects	747
Moving and Rotating an Xref	748
Modifying an Xref Drawing	749
Modifying an Xref by Making It the Current Drawing	750
Modifying an Xref from within the Host Drawing	753
Adding an Image to a Drawing	759
Putting Xrefs to Use	762
Exploring Additional Xref Features	764
Setting the Xref Path	764
Changing Path Types	766
Binding Xrefs	768

Exploring on Your Own	770
If You Would Like More Practice...	771
Building Architectural References	771
Comparing Reference Types	772
Are You Experienced?	772
Now you can.....	772

CHAPTER 14	Using Layouts to Set Up a Print	773
-------------------	--	------------

Getting Ready	774
Preparing the Title Block	774
Creating the Title Block Reference	775
Defining the Attributes	780
Making the Sheet Information Block	785
Setting Up a Sheet Template	787
Setting the Layout Parameters	789
Finishing the Sheet Template	793
Creating Your First Plan Sheet.	799
Using Sheet Set Manager	802
Creating a New Sheet Set	802
Adding Existing Drawings to a Sheet Set	808
Creating Drawings with Sheet Set Manager	812
Setting Up Layouts	817
Referencing the Model	817
Creating the Paper Space Viewport.	820
Setting the Viewport Scale	822
Copying the Layouts	825
Adjusting a Viewport's Contents	838
Setting the Linetype Scale.	839
Managing the Floor Plan Sheet File	840
Managing the Elevations Sheet File	846
Setting Up the Site Plan Sheet	850
Defining a New Viewport Scale	852
Locking and Turning Off Viewports	855
If You Would Like More Practice...	857
Are You Experienced?	858
Now you can.....	858

CHAPTER 15	Printing a Drawing	859
	Using the Plot Dialog Box	860
	Printer/Plotter	862
	Paper Size and Number of Copies	863
	Plot Area	863
	Plot Scale	869
	Plot Offset and Plot Options	870
	The Expanded Plot Dialog Box	872
	Applying Plot-Style Tables	874
	Introducing Plot-Style Table Files	874
	Understanding How Plot-Style Table Files Are Organized	876
	Assigning Plot-Style Tables to Drawings	879
	Printing a Drawing	885
	Determining Lineweights for a Drawing	885
	Setting Other Properties of Layers	891
	Setting Up the Other Parameters for the Print	892
	Previewing a Print	894
	Viewing Plots in Design Review	896
	Printing a Drawing Using Layouts	898
	Updating Model File Layer Properties in Sheet Files	898
	Plotting a Single Layout	901
	Printing a Drawing with Multiple Viewports	903
	Printing with a Large-Format Printer	903
	Publishing Multiple Layouts	905
	Publishing with Sheet Set Manager	907
	Going Forward	910
	If You Would Like More Practice	911
	Are You Experienced?	912
	Now you can	912
CHAPTER 16	Creating 3D Geometry	913
	Modeling in 3D	914
	Setting Up the 3D Workspace and Environment	914
	Making the Walls	919
	Creating the Door and Window Block-Outs	924
	Moving and Rotating in 3D	928

Using the First Right-Hand Rule.....	929
Cutting the Openings	933
Creating the Floor, Foundation, and Thresholds	935
Creating the Foundation and Supports	937
Building the Windows	939
Navigating with the ViewCube	954
Adding the Sliding Door	956
Building the Decks.....	960
Putting a Roof on the Cabin	979
Getting Further Directions in 3D	993
Using Other Solid-Modeling Tools.....	993
Using Mesh-Modeling Tools.....	996
Using Surface-Modeling Tools.....	997
If You Would Like More Practice... ..	999
Are You Experienced?	1000
Now you can.....	1000

CHAPTER 17 Rendering and Materials 1001

Creating Cameras to Reproduce Views	1002
Using the Loft Tool.....	1002
Creating the Cameras	1007
Creating a Lighting Scheme.....	1011
Creating a Light Source.....	1011
Enabling Shadows	1014
Creating the First Render	1016
Controlling the Background of the Rendering.....	1020
Adding Materials.....	1023
Adjusting the Material Mapping	1028
Rendering to a File.....	1033
If You Would Like More Practice... ..	1037
Are You Experienced?	1037
Now you can.....	1037
