

## Key Features

- Classifies mobility space and outlines mobile app development approaches and technologies.
- Identifies mobile app development challenges and illustrates tenets of a winning app.
- Implements a live mobile app demonstrating app development from inception to publishing.
- Delves into designing app user interface that can adapt to multiple screen densities and form factors.
- Describes design and implementation of long running tasks in an app.
- Defines mechanisms to respond to device events in an app.
- Illustrates management of native and enterprise data in an app.
- Explores usage of graphics, animation capabilities.
- Combine, design and implementation of media playback, capture and storage in an app.
- Outlines techniques to incorporate location awareness in an app.
- Demonstrates usage of motion, position and environment sensors in an app.
- Unfolds app testing landscape.
- Discusses strategies and best practices for publishing an app.

### The accompanying CD contains

- Step-by-step code to create a LIVE APP
- Deployment guide
- Chapter wise code snippets

# Composing Mobile Apps

Learn | Explore | Apply  
using Android™

by Anubhav Pradhan • Anil V Deshpande

## About the Authors

**Anubhav Pradhan** heads the mobility academy at Infosys Limited that caters to diversified competency development requirements across a wide spectrum of mobile technologies.

**Anil V Deshpande** is a senior member of the Mobility academy at Infosys Limited, and has been responsible for providing consultancy to delivery teams on mobile apps development and validation.

ISBN 978-81-265-4660-2 | Pages: 284 | ₹ 479

## About The Book

Composing Mobile Apps attempts to present various mobile app development approaches and technologies along with required hands-on knowledge to deal with the nitty-gritties of designing, developing, validating, packaging and publishing them. A live mobile app has been built incrementally throughout the book using Android.

## Table of Contents

### Part I – Introduction

#### 1. Mobility and Android

- 1.1 Introduction
- 1.2 Mobility Panorama
- 1.3 Mobile Platforms
- 1.4 App Development Approaches
- 1.5 Android Overview

#### 2. Getting Started with Android

- 2.1 Introduction
- 2.2 Setting up Development Environment
- 2.3 Saying Hello to Android
- 2.4 Traversing an Android App Project Structure
- 2.5 Logical Components of an Android App
- 2.6 Android Tool Repository
- 2.7 Installing and Running App Devices

#### 3. Learning with an Application – 3CheersCable

- 3.1 Introduction
- 3.2 3CheersCable App
- 3.3 Mobile App Development Challenges
- 3.4 Tenets of a Winning App

### Part II – Building Blocks

#### 4. App User Interface

- 4.1 Introduction
- 4.2 Activity
- 4.3 UI Resources
- 4.4 UI Elements and Events
- 4.5 Let's Apply
- 4.6 Interaction among Activities
- 4.7 Let's Apply
- 4.8 Fragments
- 4.9 Let's Apply
- 4.10 Action Bar
- 4.11 Let's Apply

#### 5. App Functionality – Beyond UI

- 5.1 Introduction
- 5.2 Threads
- 5.3 AsyncTask

- 5.4 Let's Apply
- 5.5 Service
- 5.6 Notifications
- 5.7 Intents and Intent Resolution
- 5.8 Broadcast Receivers
- 5.9 Telephony and SMS
- 5.10 Let's Apply
- 6. App Data – Persistence and Access
- 6.1 Introduction
- 6.2 Flat Files
- 6.3 Shared Preferences
- 6.4 Let's Apply
- 6.5 Relational Data
- 6.6 Data Sharing Across Apps
- 6.7 Enterprise Data
- 6.8 Let's Apply

### Part III – Sprucing Up

#### 7. Graphics and Animation

- 7.1 Introduction
- 7.2 Android Graphics
- 7.3 Android Animation
- 7.4 Let's Apply

#### 8. Multimedia

- 8.1 Introduction
- 8.2 Audio, Video and Images
- 8.3 Playback
- 8.4 Let's Apply
- 8.5 Capture and Storage

#### 9. Location Services and Maps

- 9.1 Introduction
- 9.2 Google Play Services
- 9.3 Location Services
- 9.4 Maps

#### 10. Sensors

- 10.1 Introduction
- 10.2 Sensors in Android
- 10.3 Android Sensor Framework
- 10.4 Motion Sensors
- 10.5 Position Sensors

- 10.6 Environment Sensors

- 10.7 Let's Apply

### Part IV – Moving To Market

#### 11. Testing Android Apps

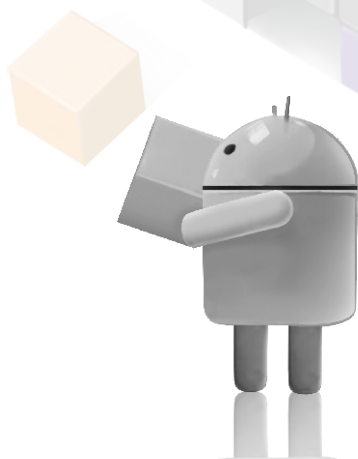

- 11.1 Introduction
- 11.2 Testing Android App Components
- 11.3 App Testing Landscape Overview

#### 12. Publishing Apps

- 12.1 Introduction
- 12.2 Groundwork
- 12.3 Configuring
- 12.4 Packaging
- 12.5 Distributing
